

Kingdom light assembly (Jesus life people)

Ministry objective

Our ministry objectives is to make a difference in the lives of people. To lift people out of the valley of ignorance by equipping them with the knowledge they need to live a life of purpose. Our aim is to build a church that is modelled after the scriptures, a church without wall whether it be racial, ethnic, cultural or social. We seek to build a church where people from every race, every culture can find a commonness in their faith in God. We seek to provide a platform to meet needs of people both spiritually and physically. When the sick came to Jesus, they found healing, our goal is to pray for the sick and encourage them to believe God for their healing. One important part of our ministry calling is to heal the sick. Our objectives are to visit and pray for those who are sick. When the hungry came to Jesus, they were feed; our goal is to help in the feeding of the hungry, clothing of the naked and in proving refuge for those who are homeless. We believe that our goals are achievable when we operate in the unity of faith. To this end, we emphasis biblical principles in all we do and teach.
